An intriguing itinerary and an iconic car make for the perfect pairing.

The bright, balmy days of summer are made for an epic road trip. No matter if it's spending a few hours driving up and down the coast or breaking for a full week to discover somewhere new, getting behind the wheel of a great car to take on the open road is one of the travel world's most iconic experiences.

Below, 10 hotels that have created unbeatable packages and programs in honor of a classic pairing: an amazing car with a great itinerary.

Colorado in a Bentley or Corvette

This resort's remote location—where five different canyons converge just outside the Moab—means having access to a car is of the utmost importance. Thanks to its Driven Experiences program, you'll have your pick from Gateway Canyons' expansive private collection of luxury high-performance vehicles, such as a Bentley Continental and Corvette ZR1 Coupe, that you can take on any excursion you can think of.

The majestic natural surrounds should inspire ideas, but if you need more guidance, consult with the property's Curator of Curiosity, who can organize star-gazing activities and even foraging day trips.

Car rental starts at \$150 for four hours; 43200 Colorado 141, Gateway; 970-931-2458; gatewaycanyons.com
