FROM
WINTER

7 dream beach
resorts that will
turn your seasonal
blahs into 'aahhs'

Guests come by yacht to remote Little Palm Island in the Florida Keys, also above.

LITTLE PALM ISLAND

LITTLE TORCH KEY, FLORIDA | ATLANTIC OCEAN

WHAT YOU'LL LOVE: The serenity. A private island with no cars (you'll arrive by boat or sea plane), no kids, no pets, no room phones, no room TVs. The resort also has its own library for casual reading. Tuck in with a good book while listening to the soothing surf wash outside. And enjoy the privacy of intimate dining at the exclusive chef's table.

POSH POINTS: Berta Aizen, a luxury consultant for Frosch Travel, calls Little Palm "a hidden treasure." The staff offers a menu of romantic possibilities, including a sunset serenade of wine and cheeses and a caviar interlude. Nudge your significant someone to ask the staff about *The Notebook*, and in no time a knock on your door will signal the arrival of a hand-written love letter accompanied by a dozen roses, some chocolates and a bottle of Laurent Perrier. You can take it from there.
